

ZOOM TO SUCCESS

5 Things
Students
Want You
to Know

to Help
them
Learn on
Zoom

CANVAS ZOOM TAB

Using the Zoom tab in Canvas is an intuitive way to make sure students can quickly reach your live sessions every time. Searching for Zoom links in different places for each class as modules, assignments, and emails can be frustrating.

LIVE POLLING

In the absence of iClicker, Zoom Polling can be used to assess comprehension and reinforce valuable content without adding on more assignments and quizzes. Reducing anxiety and information overload allows students to focus more on the course content.

BREAKOUT ROOMS

Breakout rooms allow for active learning. Students can interact with one another, engage with course material, and connect what they are learning to their own experiences in small discussion groups.

BE EXPRESSIVE & RECAP

Body language and vocal cues don't always come across clearly in Zoom, making it harder to focus on what's essential. Emphasize your main points with voice and gesture, and reemphasize and recap critical content.

QUICK UPLOADS

Posting video or audio recordings as soon as possible allows students to rewatch content before related assignments and activities are due. Having extra time needed to absorb presentations really helps in less-than-ideal learning environments.
